- Format Numbers
- Copy Formatting
- Cell Styles
- Analyze Data with Conditional Formatting
- Tables

Excel Class Training

Paste Special

Lesson 8

- Print Views
- Orientation
- Set Print Areas
- Set Print Titles
- Headers/Footers
- Save As PDF

Lesson 9

- Create New Workbooks
 - Customize The Quick Access Toolbar
- Add New Worksheets
- Name Worksheets
- Move or Copy a Worksheet
- Change the Color of a Sheet Tab
- Freeze Sheet Panes
- Insert / Delete Rows or Columns
- Hide Rows or Columns

Lesson 10

- Charts
 - Types of Charts
 - Switch Rows and Columns
 - Apply a Chart Style
 - Add Chart Elements
 - Chart Title
 - Axis Titles
 - Legend
 - Data Labels
 - Data Table
 - Axes
 - Gridlines
 - Chart Styles
 - Move Chart Location
 - Format Selection
 - Size A Chart To Specific Dimensions
 - Charts With Numeric Scale Issues
- Sparklines

Lesson 11

- Find Text or Values
- Find Supports Wildcard Searches
- Customize The Quick Access Toolbar
- VLookup / Hlookup
- Vlookup A Vlookup
- New Window and Arrange All
- Named Ranges
- Index / Match
- Combine a Match Function with Vlookup
- Index Reference Array

Lesson 12

- Logical If
- Nested If
- Logical And
- Logical Or
- Iifs Functions
- Switch Functions
- Information Functions
- Array Formulas

Lesson 13

- Images
 - A Company Logo
 - Reduce Image Size
 - Crop
 - Bring To Front
 - Accessibility
 - Shapes
 - Fill A Shape With A Picture
 - Icons
 - SmartArt
 - 3D Model
 - ScreenShot
 - 3D Map
 - WordArt
 - Symbols
 - Hyperlinks
 - Ink
 - Digital Signature

Lesson 14

- Import Data
 - From a CSV file
 - Text To Columns
 - Import Stock Market Data
- Control Data Entry with Validation
- Extract Unique Values: Remove Duplicates
- Data Consolidation
- Group And Outline
- Goal Seek
- Scenarios
- Forecast Sheet
- Relationships
- Quick Analysis

Excel Class Training

Lesson 15

- Concatenate
- Len
- Left
- Right
- Trim
- Upper
- Lower
- Proper
- IsBlank
- IsText
- IsNumber
- Auditing
 - Show Formulas
 - Trace
 - Evaluate
 - Watch

Lesson 16

- Record A Macro
- Show The Developer Tab
- Run a Macro by Command
- Create a Button Shape On a Worksheet Cell
- Assign A Macro To The Quick Access Toolbar
- Edit A Macro
- Writing VBA Code
- To Fix A Macro That Generates A PivotTable
- Create A Macro Without Recording

Lesson 17

- Comments
- Notes
- Share A File
- Inspect
- Spell Check
- Translate
- Smart Lookup
- Protection
 - Workbook Level Protection
 - Set an Open or Modify Password
 - Workbook Protection
 - Worksheet Level Protection
 - Range Protection

Lesson 18

- XML
- Properties
- Trust/Privacy
- Office Theme

Lesson 19

- Help
